Las Vegas, Clark County

C. A summary of the report of abuse or neglect and a factual description of the contents of the report:  
CCDFS received a report relating to a deceased child. On 5/9/2020, the child had reportedly ingested a liquid chemical substance that was stored in a soft drink bottle, assuming it was soda. The child was taken for emergency treatment at a local hospital upon knowledge of the ingestion. He was discharged on 5/10/2020, as the chemical was presumed to be low-risk. Several hours after release from the hospital, the child’s health deteriorated and he was taken back to the hospital. On 5/11/2020, the child was pronounced deceased.

D. The date of birth and gender of child:  
1/6/2012, Male

E. The date that the child suffered the fatality or near fatality:  
5/11/2020

F. The cause of the fatality or near fatality, if such information has been determined:  
No maltreatment was found to be a factor with regard to this fatality incident.

G. Whether the agency had any contact with the child or a member of the child’s family or household before the fatality or near fatality and, if so…  
(1) The frequency of any contact or communication with the child or a member of the child’s family or household before the fatality or near fatality and the date on which the last contact or communication occurred before the fatality or near fatality;  
(2) Whether the agency which provides child welfare services provided any child welfare services to the child or to a member of the child’s family or household before or at the time of the fatality or near fatality;  
(3) Whether the agency which provides child welfare services made any referrals for child welfare services for the child or for a member of the child’s family or household before or at the time of the fatality or near fatality;  
(4) Whether the agency which provides child welfare services took any other actions concerning the welfare of the child before or at the time of the fatality or near fatality; and
(5) A summary of the status of the child’s case at the time of the fatality or near fatality, including, without limitation, whether the child’s case was closed by the agency which provides child welfare services before the fatality or near fatality and, if so, the reasons that the case was closed.

The information contained in this section is limited to contact(s) with the child who is the subject of this disclosure or a member of that child’s family or household that is related to the fatality or near fatality incident. This limitation is required to preserve the confidentiality of all child abuse and neglect reports and records in order to protect the rights of the child and family as mandated by the Child Abuse Prevention and Treatment Act (CAPTA), as amended (42 U.S.C. 5101 et seq.).

CCDFS has no prior CPS history for this child or member of the child’s family or household.

H. Whether the agency which provides child welfare services, in response to the fatality or near fatality…

(1) Has provided or intends to provide child welfare services to the child or to a member of the child’s family or household; and
(2) Has made or intends to make a referral for child welfare services for the child or for a member of the child’s family or household; and
(3) Has taken or intends to take any other action concerning the welfare and safety of the child or any member of the child’s family or household.

CCDFS has concluded its investigation and family assessment. The investigation found no evidence to support the fatality incident was a result of maltreatment. The family was provided with a community resource guide and received information regarding appropriate services to assist with their grief and loss. No further CPS intervention was deemed necessary and the case is closed.
