Special Guidelines:

Private Adoptions:

Foster Home Placements:

- If your relative placement resource is outside the fifth level of consanguinity you must request a foster home study.

Expedited Home Studies (Reg. 7)

- The child must be in an emergency shelter **OR** be four years of age or younger **OR** have a substantial relationship with the proposed placement resource **OR** experienced an unexpected dependency.

Relocation of Family Units (Reg. 1)

- 100A and all accompanying information shall clearly state that a relocation of a family unit is involved and supervision needs to start within the 30 days of placement.

Regulation No. 6 (.Permission to Place Child: Time Limitations, Re-application)

1. Permission to place a child given pursuant to Article III (d) of the Interstate Compact on the Placement of Children shall be valid and sufficient to authorize the making of the placement identified in the written document ICPC-100A, by which the permission is given for a period of six (6) months commencing on the date when the receiving state compact administrator or his duly authorized representative signs the aforesaid ICPC-100A.
2. If the placement authorized to be made is not made within the six (6) months allowed therein, the sending agency may reapply. Upon such reapplication, the receiving state may require the updating of documents submitted on the previous application, but shall not require a new home study unless the laws of the receiving state provide that the previously submitted home study is too old to be currently valid.
3. If a foster care license, institutional license or other license, permit or certificate held by the proposed placement recipient is still valid and in force, or if the proposed placement recipient continues to hold an appropriate license, permit or certificate, the receiving state shall not require that a new license, permit or certificate be obtained in order to qualify the proposed placement recipient to receive the child in placement.
4. Upon reapplication by the sending agency, the receiving state shall determine whether the needs or conditions of the child have changed since it initially authorized the placement to be made. The receiving state may deny the placement if it finds that the proposed placement is contrary to the interests of the child.
