

Meet Mason (5/10) Annabelle (6/15) Andrew (10/16)

These three are full of love and curiosity! All three are described as sweet and loving. Once Mason feels like he knows you a bit, you'll find that he has an active imagination, and loves to draw and create new games to play. Pokémon, Minecraft, and video games are his go to activities! Annabelle is the middle child. She loves sharing her toys, and wants others to play with her. She's very social and personable to everyone around. Watch her grow in gymnastics, help her put together some puzzles, and play some music with her! Andrew is the youngest of these three! Playing outside with his trucks, or any kind of ball will make his day. He loves getting on his toddler bike and riding around. He'd love to look at books with you while you read to him, get into tickle fights, and seeing what he can build with Legos! These three will be looking for a home where they can be loved and placed together. They're hoping for a home that is active, while fostering a loving and attentive atmosphere.
