

Meet Delilah- January 2011

She is a social butterfly. She loves her hobbies, including cheer, gymnastics, jumping on her trampoline and outdoor activities. She loves an active home. Delilah would like the opportunity to play with animals, including horses and dogs. She is witty and can match you word for word in a discussion. She is smart and is loving her current school. She has been diagnosed with Diabetes, and needs a family who can help her manage and teach her the need to manage her medical needs. She likes having a quiet home setting while she is studying to help her stay focused with some one on one time. Delilah needs to stay in touch with her brother with visits and phone calls and would like to be able to keep in touch with a few of her biological family members, who can continue to be a great support system for her.

For more information about Delilah, or the adoption process, please contact the DCFS Adoption Recruiter at timothy.provost@dcfs.nv.gov.
