

Janet- December 2002

Janet loves reading and she goes through books so fast she can frequently be found at the library! You can find Janet kicking a soccer ball around when she isn't reading or doing artwork. Janet has an Individualized Education Plan that supports her in school. Her favorite subject is math.

Janet needs a patient family who understand they will have to give her some time before she is able to return their love. She would like to stay in some sort of contact with her siblings. Janet is a caring young lady who needs stability and permanent connections as she grows into adulthood.

For more information about Janet or the adoption process, please email josterhout@dcsf.nv.gov
