

Janet- December 2002

Janet loves reading and can frequently be found with a book in her hand! You can also find Janet kicking a soccer ball around when she isn't reading or doing artwork. Janet's favorite subject in school is math. Janet can be described as thoughtful, sweet, and kind. She has some communication with her siblings and would like to continue those connections. Janet would like to unpack for the last time and bond with a family that encourages her to pursue her passions and be the best she can be as she grows into adulthood.

For more information about Janet or the adoption process, please email josterhout@dcsf.nv.gov
