

Robert- 2004

Robert is engaging, playful, and expressive. Robert has a wide variety of interests from running on the track team and playing basketball to drawing, creating Lego structures, and writing stories. Robert likes school and thrives from extra support he receives in order to achieve good grades. He would love the opportunity to continue youth group activities at a Christian church. Robert has a brother that he is very close to and desires to maintain a close connection. Families who are interested in Robert individually, as well as with his brother, Steven, will be considered. Robert looks forward to joining a family that is structured, kind, and loves animals as much as he does!
