

Steven – 2001

Steven is a kind young man who likes helping others. He really enjoys his involvement in Boy Scouts. Steven can be very talkative at times, but he can also be quiet, needing his alone time. You can find Steven reading, drawing, and playing video games on his down time. Steven enjoys school and aspires to do something in the culinary field when he graduates high school. Steven has a brother that he is very close to and desires to maintain a close connection. Families who are interested in Steven individually, as well as with his brother, Robert, will be considered. Steven looks forward to joining a family that will help him pursue his goals and dreams as he enters adulthood!
