Introduction

The purpose of the Data Book is to provide key statistics that reflect the operations of the Division of Child and Family Services (DCFS) within the Nevada Department of Health and Human Services (DHHS).

This document is updated quarterly (typically at the end of the month during October, January, April, July). Some data will be updated quarterly whereas other data is only updated at the end of the year.

Information contained in this Data Book is extracted from relevant databases around the 15th of each month following the reporting period noted in the table or visualization, unless otherwise noted. Efforts are made to ensure that the data is accurate and relevant. Please note that the data is dynamic and may change regularly. Different run dates will result in different totals.

More detailed descriptions of DCFS performance and programs are posted on the Division's website at <https://dcfs.nv.gov/>.

Additional Information

For data-related questions:

Email the DHHS Office of Analytics at data@dhhs.nv.gov.

For DCFS program-related questions:

Contact the DCFS Systems Advocate using [this form](#) or email the DCFS Systems Advocate at systems.advocate@dcfs.nv.gov.

DCFS Overview

The State of Nevada's Division of Child and Family Services (DCFS) provides a wide range of services for the children, youth, and families in Nevada. Program areas include Child Welfare, Juvenile Justice, Children's Mental/Behavioral Health Services, Administration and Support Services, and direct services as well as oversight for programs administered at the county and local levels.

<i>Child Welfare Services</i>	<i>Juvenile Justice Services</i>	<i>Mental and Behavioral Health Services</i>	<i>Administrative and Support Services</i>
Child Protective Services	Youth Alternative Placement	Inpatient Treatment Services	Grant Management and Fiscal Administration
Intensive Family Services	Juvenile Correctional Care	Residential Care Including Family Learning Homes	Federal Reporting on Child Welfare and Services
Foster Care Licensing	Rehabilitation and Academic/Vocational Training	Acute Residential Treatment Center	Personnel and Payroll
Foster Care Placements	Youth Parole Bureau – Supervision and Services	Adolescent Residential Treatment Center	Fiscal Services
Child Abuse and Neglect Registry	Interstate Compact for Juveniles (ICJ)	Early Childhood Services	Contracts Administration
Interstate Compact for the Placement of Children	Quality Improvement	Outpatient Treatment Services	Eligibility Determination for Federal Programs to Youth
Indian Child Welfare Act (ICWA) Administration	Juvenile Justice Delinquency Prevention Act Compliance (JJDP)	Intensive Care Coordination Services	Domestic Violence Victims Assistance
Services to Foster Youth Transitioning to Adulthood	Prison Rape Elimination Act (PREA)	Consortium	Systems Advocate Office
Adoption Placement	Juvenile Justice Oversight Commission (JJOC)	Training	Compliance and Oversight for Various Programs Information
	Programs Office – Grant Programs, Data Collection		Information Services

Child Welfare Services

Child Welfare includes direct child protective services, foster care, adoption, and independent living services, foster care licensing in 15 rural Nevada counties, statewide oversight for child welfare (including the two urban county child welfare agencies), and oversight of the Interstate Compact for the Placement of Children.

Nevada uses a state-supervised and county-administered structure for the management of child welfare services. DCFS, under the umbrella of the Nevada Department of Health and Human Services (DHHS), provides oversight to child welfare and direct child welfare services. The organizational structure of DCFS and program delivery of child welfare services are influenced by the state size and concentration of county population. In counties with a population of 100,000 or more, the county provides all child welfare services.

Clark County Department of Family Services (CCDFS) and Washoe County Human Services Agency (WCHSA) provide child welfare services directly to all children and families located in those counties. DCFS provides child welfare services to the remaining 15 counties in the state through its Rural Region offices as well as oversight of services in Clark and Washoe counties.

Intake Services

Intake is the first stage of the child protective services (CPS) process and is one of the most important decision-making points in the child protection system. It is the point at which reports of suspected child abuse and neglect are received. Information gathered by caseworkers is used to make decisions regarding safety and the type of CPS response required. The first part of the CPS process is a referral from an outside source and the Child Welfare Agency's response. Thousands of CPS referrals are received and processed by Intake staff statewide each month. A supervisor then disposes the referral, which then becomes a 'report' (more than one referral can be linked to one report, for example if multiple people contact a child welfare agency regarding the same incident of alleged abuse or neglect). The report disposition determines whether the report is screened-in for subsequent agency involvement or screened-out and the agency's involvement does not continue. For information about report dispositions, refer to the [DCFS Intake policy](#).

Count of CPS Referrals Received by Month by Referral Jurisdiction for SFY 2020 - SFY 2024 YTD

Statewide - Count of CPS Referrals Received by Month

State Fiscal Year	July	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Total	% Change from Previous Year

Child Protective Services

Child Protective Services (CPS) is the first step to ensure the safety and permanency of children who have been reported as being allegedly abused or neglected. The primary focus of CPS is to ensure that children are protected from harm or risk of harm and to make it safe for the child to live with the parent or caretaker. CPS agencies respond to reports of abuse or neglect of children under the age of 18. Abuse or neglect complaints are defined in statute and include mental injury, physical injury, sexual abuse and exploitation, negligent treatment or maltreatment, and excessive corporal punishment. CPS investigative workers assess the safety of children, protective capacity of caregivers, and the family functioning, and they identify strengths and risks in the home.

Statewide Maltreatment Allegations SFY2024 YTD

Allegation	n	%
Physical Injury (Neglect)	2,253	50.1%
Negligent Treatment (Neglect)	1,698	37.8%
Physical Injury (Abuse)	296	6.6%
Sexual Abuse (Abuse)	175	3.9%
Sexual Abuse (Neglect)	73	1.6%
Mental Injury (Neglect)	2	0.0%
Mental Injury (Abuse)	1	0.0%
Total	4,498	100%

Percent of maltreatment allegations are based on screened-in reports, regardless of finding. There have been no allegations of Substance-exposed Infant during this fiscal year (SFY2024).

Source: UNITY Database – SQL Query

Upon completion of the investigation of a report of abuse or neglect, a determination of the case findings is made based on whether there is a preponderance of evidence to believe that a child was abused or neglected or threatened with abuse or neglect. The findings are classified as either Substantiated or Unsubstantiated, although investigations can close due to being unable to locate the family or other reasons which is under the classification of Unable to Locate or Administrative Closure (and thus will not have a finding of substantiated or unsubstantiated). Substantiated means that a report made pursuant to NRS 432B.220 was investigated and that a preponderance of evidence of the abuse or neglect exists. Unsubstantiated means that a report made pursuant to NRS 432B.220 was investigated and that a preponderance of evidence of the abuse or neglect does not exist.

The subsequent table displays report-level findings for closed investigations; the 'report-level finding' is the overall finding of maltreatment for the report, not the finding associated with a specific child or maltreatment allegation. For instance, the finding of 'substantiated' means that at least one allegation associated with at least one child on the report was substantiated although there may be other allegations that were unsubstantiated. A finding of 'unsubstantiated' means that no allegations associated with any child in the report were substantiated.

Percent of Children Without Recurring Abuse or Neglect in Six Months SFY2022 - SFY2024 YTD

This measure assesses the effectiveness of Child Protective Services staff in reducing the risk of harm for children who have been maltreated. For children with a substantiated report of abuse and/or neglect, it shows what percentage did not have another substantiated report within six months of the prior substantiated report date.

Foster Care Services

Some investigations reveal that a child cannot safely remain in the home and must be removed to foster care. This a last resort option, part of the overall continuum of services provided by child welfare agencies.

Length of Stay in Months for Children Exiting Foster Care

Length of stay in foster care refers to the amount of time between entering and exiting foster care. Being removed from home and placed in foster care are difficult and stressful experiences for any child. The goal for every part of the child welfare system is for children to remain safely with their families or if in out-of-home care, to return home as soon as safely possible.

Foster Care Licensing

When children must be removed from their homes, the child welfare agency must utilize traditional foster care. Resource home development is designed to recruit, train, license, and retain the most appropriate families available who can meet the needs of the children.

Family foster home means a family home in which one to six children who are under 18 years of age or who remain under the jurisdiction of a court pursuant to NRS 432B.594 and who are not related within the first degree of consanguinity or affinity to the person or persons maintaining the home are received, cared for, and maintained, for compensation or otherwise, including the provision of free care. The term includes a family home in which such a child is received, cared for, and maintained pending completion of proceedings for the adoption of the child by the person or persons maintaining the home.

Group foster home means a foster home which provides full-time care and services for 7 to 15 children who are: under 18 years of age or who remain under the jurisdiction of a court pursuant to [NRS 432B.594](#); not related within the first degree of consanguinity or affinity to any natural person maintaining or operating the home; and received, cared for, and maintained for compensation or otherwise, including the provision of free care.

Caseworker Visits with Children

In accordance with the state plan requirements of Title IV-E of the Social Security Act, the child welfare agency must ensure that children, who are in foster care and under the responsibility of the agency, are visited monthly and that the caseworker visits are well-planned and focused on issues pertinent to case planning and service delivery to ensure the safety, permanency, and well-being of the children.

The following Caseworker Visit Compliance graphs are based on a Federal Fiscal Year (FFY) which runs from October 1 through September 30. Federal target increased from 90% to 95% effective August 2014.

Services to Foster Youth Transitioning to Adulthood

The goal of Nevada's Independent Living Program (IL) is to prepare young adults for the transition to adulthood and to provide opportunities to obtain the skills necessary for self-sufficiency. Independent Living, while commonly seen as a placement option, is not only a placement but also a set of services specifically designed around the needs of each youth in the program. DCFS is responsible for providing IL services in the 15 rural counties of the state and overseeing Clark and Washoe counties.

Court Jurisdiction Youth

Assembly Bill 350 (AB 350), enacted in the 76th Session of the Nevada Legislature (2011) and signed into law by Governor Sandoval on May 18, 2011, provides that youth who "age out" of foster care (reach the age of majority while in foster care) may continue in the jurisdiction of the court after the age of 18 under certain circumstances. The agency that provides child welfare services continues monetary payments to the youth while they remain in the jurisdiction of the court.

Finalized Adoptions and Adoption Subsidies

It is the policy of the agencies providing child welfare services to provide financial, medical, and social services assistance to adoptive parents, thereby encouraging and supporting the adoption of special-needs children from foster care. A statewide collaborative policy outlines the special-needs eligibility criteria, application process, types of assistance available, and the necessary elements of a subsidized adoption agreement.

Juvenile Justice Services

Juvenile Justice Services includes three correctional facilities (Caliente Youth Center, Nevada Youth Training Center, and Summit View Youth Center), the Youth Parole Bureau, the Interstate Compact for Juveniles (ICJ) program, Quality Improvement, and the Juvenile Services Programs Office, which includes compliance oversight for the Juvenile Justice and Delinquency Prevention Act (JJDP), administrative oversight for the Juvenile Justice Oversight Commission (JJOC) and the Advisory Committee to the Commission, compliance oversight for the Prison Rape Elimination Act (PREA), statewide data collection, and grant programs.

Youth committed for correctional care are generally placed in one of the facilities for an average of six to nine months. Upon successful completion of the program in the facility, the youth are released into the community with supervision and case management services provided by the Youth Parole Bureau. Youth committed to DCFS for mental health care receive treatment based on their identified needs and are assigned a Youth Parole Counselor for case management services through the Youth Parole Bureau.

Juvenile Justice Services' primary mission is to protect the community while providing a secure and caring environment for youth which encourages them to develop competencies, repay their victims, and reduce or eliminate recidivism.

Statewide Juvenile Justice Data

Juvenile Justice Overview – Federal Fiscal Years 2019 – 2023*

Item	2019	2020	2021	2022	2023**

Juvenile Correctional Care

The purpose of this activity is to ensure that children committed to the State of Nevada for correctional care receive effective services in a safe, secure, healthy, and therapeutic environment by trained, qualified staff.

Correctional centers provide educational and vocational programs, counseling in life skills and independent living skills, substance abuse and relapse prevention, anger management, grief counseling, and parenting classes. Additionally, specialized programming is offered based on individualized treatment needs and goals.

The federal Prison Rape Elimination Act (PREA) establishes standards to prevent, detect and respond to sexual abuse and sexual harassment in confinement settings. DCFS has a zero-tolerance policy against all forms of sexual abuse and sexual harassment regarding youth in our correctional care.

All reports of sexual abuse and sexual harassment are fully investigated. Below is the data for the outcomes of all PREA investigations for 2019 and 2023.

PREA Investigation Outcomes – Calendar Years 2020 – 2024 YTD

Total Number of Investigations

Facility	2020	2021	2022	2023	2024 YTD

Youth Successfully Completing Parole Program

Youth Parole sets out a detailed parole program for the youth to follow to achieve successful completion, which includes counseling, school or work, and activities. This measure shows the percentage of youth successfully completing the parole program. There are three types of termination from parole: positive, general, and negative. Only youth receiving a positive or general termination from parole are considered to have successfully completed the parole program.

Count and Percentage of Youth with Successful Completion of Parole Program for Youth Whose Cases Were Closed and Approved in SFY2020 - SFY2023

Source: Juvenile Justice Programs Office

One factor to provide positive outcomes for juveniles on youth parole is to steer them toward their educational goals. This measure shows the percentage of youth who are involved in either: (1) school, (2) alternative education, (3) vocational training, or (4) employment at time of release from a youth parole program.

Mental/Behavioral Health Services

Mental/Behavioral Health Services provides community-based and outpatient services to families in the state, many of whom would enter the child welfare or juvenile justice systems without appropriate treatment and intervention. DCFS' nationally recognized program, Wraparound in Nevada (WIN), provides children with serious emotional disturbances, intensive targeted case management services. DCFS' mental health programming also includes early childhood services, residential care such as family learning homes, a residential treatment center for adolescents, and an acute residential treatment center.

Outpatient Treatment Services

The purpose of this activity is to provide comprehensive, individualized mental health care to emotionally disturbed children, ages 6 to 18, and their families, and young children, ages birth to six years of age with deficits, and their families and communities. The clientele in the 6-to-18 age group often have multiple and serious life challenges. The goal of these services, focused on the child's strengths and needs, is to reduce challenging behaviors; increase positive behaviors and emotions; treat and manage mental health symptoms; improve functioning at home, in school and in the community; strengthen parent-child relationships; and facilitate the child's resiliency and recovery.

The purpose of Early Childhood Mental Health Services (ECMHS) is to support the social and emotional development of young children with deficits by providing comprehensive mental health services to children ages birth to six years of age, their families, and the communities in which they live. ECMHS works with the whole family to support and train parents in how to create relationships with their children that will, in turn, allow them to develop age-appropriate and healthy social and emotional skills.

Mobile Crisis Response Team

The Mobile Crisis Response Team is designed to reduce unnecessary psychiatric hospitalizations and placement disruptions of children and youth and to reduce the need for youth to go to emergency rooms or detention centers to have their mental and behavioral health needs addressed. MCRT services provide immediate care and treatment from specialized teams, which include qualified mental health professionals and psychiatric case managers to any child or adolescent requiring support and intervention with a psychiatric emergency.

Inpatient Psychiatric Services

The purpose of inpatient psychiatric services is to provide quality, individualized inpatient mental health treatment in a safe and culturally sensitive environment for children and adolescents with the most severe emotional disturbances. Primary activities include acute psychiatric care to youth at immediate risk of harm to themselves or others, including intense therapeutic services and short-term care until the immediate risk of harm is no longer present; and residential treatment care, including less-intense therapeutic services than acute care; longer-term care for chronic mental health conditions that require longer-term inpatient treatment in order for the youth to transition to community-based treatment; and specialized treatment for males adjudicated on sexual offenses.

Desert Willow Treatment Center (DWTC) is a licensed psychiatric hospital with one acute psychiatric unit (8 beds) serving children 12-17 years of age. The acute unit has been closed since November of 2021 due to critical staffing shortages related to the pandemic. DWTC is actively recruiting staff to prepare for the reopening of the acute unit.

Residential Rehabilitation Services

One of DCFS' goals is to ensure that children with the most severe emotional and behavioral problems live in a safe, healthy, and positive treatment environment focused on resiliency and recovery. Treatment homes provide a structured, supervised, and therapeutic living environment for children and adolescents who cannot live safely in a family home or foster home. These children were discharged or denied services from community private providers due to severe emotional and behavioral disturbances, developmental disabilities, specialized needs, and/or severe aggression toward themselves and others. There are four DCFS-run facilities that provide residential services to youth: Desert Willow Residential Services, PRTF Enterprise, PRTF North, and PRTF Oasis.

Intensive Care Coordination Services

DCFS' nationally recognized "Promising Practice" program, Wraparound in Nevada (WIN), provides intensive community-based services to Severely Emotionally Disturbed Children (SED), ages birth to 18 years, who are in the custody of the Child Welfare System. Through WIN, youth and families are provided the opportunity to become equal participants in their case planning and receive support necessary to gain family independence. Services include assessment, case planning, linkage to services, monitoring the success of services, crisis response, immediate and responsive plans, and service adjustments as client needs change. WIN ensures that all community members and professionals work together to streamline services, avoid duplication of services, and communicate clearly with families and children.
