Background and Identification of State Facilities:

In 2003, the Prison Rape Elimination Act (PREA) was signed into law. The Department of Justice (DOJ) began the development of a set of national standards for implementation by federal, state, and local correctional organizations. The intended purpose of these standards was to provide comprehensive guidelines for preventing, detecting, and eliminating incidents of sexual abuse and sexual harassment involving youth and adult inmates in detention and correctional facilities. The DOJ published the final PREA Juvenile Facility Standards on August 20, 2012.

Nevada began implementation of PREA Standards in early 2014 for all State-operated Juvenile Correctional Facilities. Currently, there are three Juvenile Correctional Agencies in Nevada, including:

Nevada Youth Training Center (NYTC), located in Elko, is Nevada's medium staff-secure facility for male youth. First opened in 1915, NYTC operates a full-time accredited high school and offers vocational training, a sports program, recreational programming and evidenced based programming to match the needs of the youth. NYTC has a maximum capacity of 160 beds and is currently budgeted for 60 youth.

Caliente Youth Center (CYC), located in Caliente, is Nevada's low risk staff-secure facility for both male and female youth. Currently, CYC operates at a maximum capacity of 140 youth; 100 male youth and 40 female youth. CYC operates a full-time accredited high school in cooperation with the Lincoln County School District, vocational training, recreational programming and provides evidenced based programming to match the gender specific needs of the youth.

Summit View Youth Center (SVYC), located in Las Vegas, is Nevada's maximum-security facility for male youth. SVYC opened on February 26, 2016. SVYC has a maximum capacity of 48 beds for the most serious male youth offenders. SVYC, in cooperation with Clark County School District, operates school programs that offer both required and elective academic subjects, remedial programs, special education programs, vocational programs, interscholastic activities and recreational programming.

All correctional facilities offer medical and mental health services, counseling services, treatment planning and utilize the *Forward Thinking* program, an evidence based cognitive behavioral program model, to help youth succeed upon release.

PREA Standard Definitions for Sexual Abuse and Sexual Harassment:

Staff Training:

To ensure the agency can effectively prevent, detect, and respond to sexual abuse and sexual harassment, all correctional facility staff receive PREA training at hire and annually.

PREA training components include:

- The State's Zero Tolerance Policy and State laws regarding sexual harassment and sexual assault;
- How to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures;
- Residents' right to be free from sexual abuse and sexual harassment;
- The right of residents and employees to be free from retaliation for reporting sexual abuse and sexual harassment;
- The dynamics of sexual abuse and sexual harassment in juvenile facilities;
- The common reactions of juvenile victims of sexual abuse and sexual harassment;
- How to detect and respond to signs of threatened and actual sexual abuse and how to distinguish between consensual sexual contact and sexual abuse between residents;
- How to avoid inappropriate relationships with residents;
- How to communicate effectively and professionally with residents, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming residents; and
- How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities.

Youth Education:

To ensure youth are well informed about PREA, education is offered within 10 days of intake to ensure youth:

- Understand the agency's zero tolerance policy regarding sexual abuse and sexual harassment;
- Understand how to report incidents or suspicions of sexual abuse and sexual harassment;
- Understand their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents;
- Understand the agency's policies and procedures for responding to such incidents.

PREA Reporting Mechanisms

Youth and third parties have many ways to report sexual abuse and sexual harassment, including:

- Telling any staff member;
- Filling out a grievance report;
- Calling the PREA Coordinator at 1-888-421-9971;
- Calling 2-1-1 (Nevada 211);
- Reporting online at <http://dcfs.nv.gov/Programs/JJS/PREAHome/>.

PREA Investigations:

- All allegations of sexual abuse and sexual harassment are fully investigated.
- When an allegation of sexual abuse is made, a criminal investigation is conducted by local law enforcement.
- When an allegation of sexual harassment is made, specially trained facility staff appointed by the Superintendent complete an administrative investigation. Sexual harassment rising to the level of criminal conduct will be referred to law enforcement.
- In addition, an administrative investigation will be conducted for criminal investigations that have been finalized.
- Investigative outcomes are based on a preponderance of evidence and include:
 - Substantiated - the event was investigated and determined to have occurred, based on a preponderance of the evidence.
 - Unsubstantiated - the investigation concluded that evidence was insufficient to determine whether or not the event occurred.
 - Unfounded - the investigation determined that the event did not occur.

- Facility staff monitor for retaliation for at least 90 days from the report of the incident, to ensure reporters of sexual abuse or sexual harassment do not suffer retaliatory actions.
- Youth victims are informed of the outcome of every investigation.
- An Incident Review Team will complete a report to determine the causes of the incident and if any changes in policy or procedure need to be made after each administrative investigation ending in a substantiated or unsubstantiated finding.

Data Collection and Comparison:

Nevada began data collection for State-operated Juvenile Correctional Facilities and contracted entities in 2015.

In 2015, there were a total of 33 PREA investigations conducted statewide within the juvenile correctional facilities. This includes data from two correctional facilities as Summit View was not operational in 2015. There was a total of 1 PREA investigation conducted at DCFS contracted entities.

In 2016, there were a total of 18 PREA investigations conducted statewide within the juvenile correctional facilities. There was a total of 1 PREA investigation conducted at DCFS contracted entities.
