### **Data Start Point for CaseloadPro Conversion – Leslie Bittleston**

- Specialist Bittleston gave an update on CaseloadPro Conversion. She informed that they are progressing very well with CaseloadPro and have tested referrals and addresses. Churchill and Elko County are starting this week. Washoe County will be implemented last; they have not yet started. It's over 300 hours worth of work to implement YLS, and it will not be up and running by July 1<sup>st</sup>, but they are progressing and moving forward on this.
