

Tool Name	Single Tool or Multiple?	Cost Structure?	Current Use in Nevada?	Validated?	DA Input	Defense Input	Judicial Input	Probation Input	Facility Input	Parole Input	Other Notes
Ohio Youth Assessment System (OYAS)	Includes 5 tools		NO, however NDOC is using the adult version	Yes							
Youth Level Of Service (YLS)	Single tool with scoring sheet	We pay 2.36 per test. The trainers manual is 80.00 a piece	yes- Humboldt currently uses the YLS/SMI 2.0 since April on 2017.	Yes- studies have been provided to the committee	provides a clear recommendation of supervision level and need level. Also includes case management component	Defense knows we are recommending services and level of supervision based on a reliable and validated risks assessment.	clearer path for dispositional reports	Since we have implemented the YLS- our recommendations are based on a validated instrument which allows probation to eliminate biases. It moves us from "what we think we know is best" to what we know is best" without subjective input. It allows for a professional override if mitigating factors are present and documented			The YLS allows us to get the right youth at the right time and the right level.
Massachusetts Youth Screening Instrument (MAYSI)	Available in paper and pencil. Some jurisdictions have older software. New webbased software available and may be a component of Caseload Pro	Free with older software. Need an estimate from Caseload Pro as to cost top use as part of their system	yes in multiple jurisdictions	Yes- for the JJ Population				Used by several probation departments throughout Nevada and Nationally
