Contract Announcement Summary Information

Program Area: Nevada Division of Child and Family Services (DCFS) Desert Willow Treatment Center (DWTC)

Description: The purpose of this contract announcement is to find a provider that is a Federally Qualified Health Center (FQHC) or a not for profit agency to provide a continuum of care to include acute residential, residential treatment and partial hospitalization for youth with a dual diagnosis SED/DD, commercially sexually exploited youth, youth in child welfare or juvenile justice services and at risk for out of state placement. The provider must be able to provide a full assessment to include behavioral health and physical health.

Opportunity Category: This Request for Proposal (RFP) is for competitive proposals to provide services at Desert Willow Treatment Center.

Important Dates:
- Application Due Date: Monday August 28, 2017 by 5:00 pm
- Project Start Date: January 1, 2018
- Project End Date: June 30, 2048
- Award Notification Date: September 2017

Overview

During the 2017, legislative session the Governor’s budget proposed to reduce DWTC to a 20- bed facility. Even though there has been a reduction in census in DWTC, there continues to be a need for specialized residential and acute care in Nevada. Currently there are 118 child welfare, probation, or parole custody youth placed in an out of state facility. There are approximately another 100 parental custody youth placed in an out of state RTC. The Council on State Government (CSG) assessment of Nevada’s juvenile justice system determined more than half of the youth in the juvenile justice system have mental health treatment concerns and if they received treatment sooner, their involvement in the juvenile justice system may have been avoided. There are limited facilities in Nevada to deal with special populations such as youth with a dual diagnosis behavioral health diagnosis and a developmental disability, commercially sexually exploited youth, and youth with specific medical concerns. DCFS has also noted that a large number of child welfare and juvenile justice youth and their families have limited access to health care. It is important that the system of care includes a continuum of services to include up front comprehensive behavioral health and physical health assessment, acute care, residential treatment care, partial hospitalization, and community based services.

Scope of Work

The provider will contract with Division of Child and Family Services to provide acute and or residential treatment services within the current DWTC hospital. The provider will be a FQHC or not for profit provider and will be able to be licensed as a hospital or RTC provider. The provider will have a continuum
of care to include physical health services for DCFS clients and families, partial hospitalization, residential treatment center, and acute care. The provider can bill for services separately through Nevada Medicaid, or DCFS can bill on behalf of the provider and then pass the funds to the provider. The services will focus on the following subsets of clients: 1) youth at risk of out of state placement; 2) youth with a dual diagnosis of behavioral health/developmental disabilities; 3) youth that have been commercially sexually exploited, and 4) youth in or at risk of being in the juvenile justice or child welfare agency services.

Eligibility

All FQHC and not for profit agencies can apply if interested in providing services.
