# Annual Cost of Child Protective Services Report for SFY 2016

## **Introduction**

Nevada Revised Statute 432B.326 requires each county whose population is less than 100,000 to pay an assessment, authorized by the Legislature to the Division of Child and Family Services (DCFS) for the costs of providing child protective services in that county. It also allows a county to submit a proposal to provide those services and receive an exemption from the assessment if the designated county assumes this governmental function.

Child Protective Services, as defined by NRS 432B.042, includes the services for the protection of children, including, without limitation, investigations of abuse or neglect and assessments. The term does not include foster care services or services related to adoption.

Currently, DCFS provides or arranges for the provision of all child welfare services, including child protection, in counties whose populations are less than 100,000 excluding Clark and Washoe counties as their populations exceed 100,000.

## **Allocation of Funds**

This report is submitted with information of the allocation of child protective services funding for 15 of the 17 Nevada counties whose population is less than 100,000. DCFS expended 3.1 million dollars in State Fiscal Year (SFY) 2016. The attachments provide an explanation of cost per county based on the following:

1. The total number of children who received child protective services in each county in the immediate preceding fiscal year.
2. The amount of the expenditures made by DCFS on child protective services in each county in the immediate preceding fiscal year.
3. The categories of the expenditures made by DCFS on child protective services in each county in the immediate preceding fiscal year.

## **Child Protective Services Provided to Children**

DCFS served 2281 children throughout the 15 rural counties SFY 2016. Each county is sent a letter explaining their cost for the immediate preceding year and a projection for the upcoming year. In addition, this letter also includes the number of children DCFS served in each county.
