NEVADA RAPID INDICATOR TOOL

To identify a child who may be a sex trafficking victim or is at risk of being a sex trafficking victim.

Unique ID #: Name of person completing form:	Name of youth:	DOB:	
Name of person completing form:	Unique ID #:	_	
Do not directly ask the child or family these questions. This is not a questionnaire. These questions are to be answered to the best of your knowledge, based on your interactions and observations of the child and/or family. Confirmed Victim: If one or more indicators are checked, enter this in the data record, initiate an MDT and proceed with a comprehensive assessment for safety planning and service planning. Yes Has the child self-reported being forced or coerced into sexual activity for the monetary benefit of another person? Has law enforcement confirmed through an investigation that the child has been trafficked or engaged in any commercial, sexually-exploitive activity? To the best of your knowledge, has the child participated (forced, coerced or consensual) in a sexual act in exchange for shelter, transportation, drugs, alcohol, money or other items of value? To the best of your knowledge, has the child used the internet for posting sexually explicit material or have others posted pictures of the child with/without their consent for monetary benefit? High Risk: The following indicators are red flags that might indicate a child is, or is at high risk of being, a sex trafficking victim. If one or more indicators are checked, enter this in the data record and proceed with safety planning, additional information-gathering, assessment and monitoring. Yes Does the child have unaccounted for injuries, marking or tattoos (i.e., branding) that suggest ownership that he or she does not have an explanation for? (e.g., daddy's girl, property or someone's name, symbols, etc.) Does the child have a history of multiple runaways/AWOLs or episodes of homelessness/couch surfing in the past? Has the child have a history of multiple ror knowledge for property or someone who is controlling and/or whom the child appears to be afraid of? Does the child have a history of multiple or chronic sexually transmitted infections, or pregnancies/abortions, or report multiple anonymous sexual partners? Does the child have a histo		_
