

**Kylee**  
**DOB: August 2008**

Kylee is very active and sure to keep you busy! She is very inquisitive and loves to ask questions about everything. Kylee loves the colors pink and purple and she likes hot wheel cars and dolls. She enjoys swimming, bowling, skating, and going to the park.

Kylee has a diagnosis of Fetal Alcohol Spectrum Disorder III. Kylee will need a family with lots of structure, routine, and strong boundaries. She also requires constant supervision. Kylee enjoys feeling special and being the center of attention. She can get frustrated easily and will need to be redirected when she throws a tantrum. She is a smart little girl, but struggles to focus at school.

Kylee will need a family that will continue her therapy and medication management services. Kylee would do best in a two parent home where she is either the only child or the youngest of a small sibling group. She should be in a pet-free home. She has a close relationship with her maternal grandmother and it is important that her adoptive family is accepting of contact with her grandma.

Kylee is a sweet little girl in need of a loving family that can provide for all her needs and in return she will keep you busy and laughing!

For more information about Kylee or the adoption process, please email
