To: Clark County Child Death Review Team

From: Nevada Executive Committee to Review the Death of Children

Re: 2022 Quarter 4 Recommendation

The Nevada Executive Committee to Review the Death of Children (Executive Committee) was established in 1994 with the primary goal of preventing child maltreatment and child deaths in Nevada by making recommendations for law, policy and practice changes, staff training, and public education. Recommendations are submitted to the Executive Committee by state regional multidisciplinary child death review teams for consideration to prevent future deaths of children.

The Washoe County Child Death Review Team submitted the below recommendation to the Executive Committee in Quarter 4 of 2021. This recommendation was reviewed by the Executive Committee during the quarterly meeting held on February 14, 2024, and determined the below recommendation is now closed.

- **Community education for private homeowners, pool contractors, and home inspectors about entrapment hazards in pools and spas installed before 2007.**

The Executive Committee was provided information regarding available devices to prevent entrapment and drowning for pools and spas installed prior to 2007. The Executive Committee discussed as the devices would incur a cost, the Committee would notify Paragon Pools of the Notice of Funding Opportunity to support this recommendation.

The Executive Committee appreciates your recommendation and continued efforts to prevent future child deaths in Nevada. If you have any questions, please contact April Stahl at [astahl@dcsf.nv.gov](mailto:astahl@dcsf.nv.gov).

Respectfully,

The Executive Committee to Review the Death of Children
