

Family Navigation Network
Nevada Center for
Excellence in Disabilities

Staffed by family members, we provide information, education, training, outreach, and peer support to families of children and youth with special health care needs and the professionals who serve them.

How We Help

- Provide information and resources.
- Learn how to navigate through healthcare systems.
- Discover healthcare financing options.
- Advise how to make informed decisions about your children's health care.
- Guide families as they transition youth from pediatric to adult services.
- Offer Parent to Parent support when you just need to talk to someone.
