

**NEVADA CHILDREN’S COMMISSION BEHAVIORAL HEALTH SUBCOMMITTEE:**

**DEVELOPING A MENTAL/BEHAVIORAL HEALTH REPORT CARD**

**(DRAFT)**

**PREVENTION/EARLY INTERVENTION**

What is the age distribution of children referred to ASD for services? (if these ages are skewed older towards adolescents as I suspect, illustrates with data that we need focused efforts on early identification and referral)

How many cases have been referred to ASD for services for FASD by age?

What are the primary diagnoses of children who are referred for Early Childhood Mental Health Services? How many of those children have suspected neurodevelopmental diagnoses? How many children are referred for comprehensive neurodevelopmental assessment?

How many Medicaid approved neuropsychologists do we have by region? Of these, how many have billed Medicaid in the last 12 months?

**OUTPATIENT**

How many outpatient providers are registered with NV Medicaid to provide in home therapeutic services? How many have billed Nevada Medicaid in the last 12 months?

Is there a way to track number/capacity of Medicaid therapists who have some level of culturally affirming training/credentialed?

**INTENSIVE IN HOME**

How many mobile crisis teams are currently in place by region in Nevada? 14 active teams in South currently – can go up to 16

What is the current capacity of Mobile Crisis Intensive Step-Down program by region in Nevada?

**IOP/PHP**

How many intensive outpatient “beds” are there by region in Nevada?

- Pediatric “beds”?
- Capacity to address co-occurring neurodevelopmental?

How many partial hospitalization “beds” are there by region in Nevada?

- Pediatric “beds”?
- Capacity to address co-occurring neurodevelopmental?

How many of the available IOP/PHP programs provide transportation?

#### COMMUNITY BASED RESIDENTIAL (UNLOCKED PRTF/QRTP)

How many unlocked PRTF beds by region in Nevada?

How many QRTP beds are available by region in Nevada? (and what is plan for establishing providers in this category?)

By region, how many children entered the child welfare system over the last reporting period due to parental relinquishment of custody due to inability to meet child mental/behavioral health needs? (AB 387/NRS 433B.3392/“Collaborative Pathways” cases)

#### LOCKED RESIDENTIAL

How many RTC’s are contracted with Nevada Medicaid that have specialized substance use treatment tracks/programs? How many of these are in state versus out of state? How many of these RTC’s have billed Nevada Medicaid in the last 12 months?

How many RTC’s are contracted with Nevada Medicaid that have specialized neurodevelopmental tracks/programs? How many of these are in state versus out of state? How many of these RTC’s have billed Nevada Medicaid in the last 12 months?

#### NEURODEVELOPMENTAL DIAGNOSES

How many beds do we have in specialized family-based placements (SLA?) licensed through ADSD by region?

How many beds do we have in ICF level specialized placements by region? How many out of state ICF beds is Nevada contracted with and in which states are they located?

How many applications for developmental services has ADSD received by region over the last 12 months? What were the most common referrals diagnoses (IDD, FASD, ASD)? What were outcomes of referrals for services (rates of denials/acceptances by region). Of the denied applications, what were the most common diagnoses? What were the most common reasons for denial?

ABA services?

DUAL STATUS YOUTH
-------------------

How many children in correctional care have a significant mental/behavioral health diagnosis?

How many children in correctional care have received a recommendation for PRTF/RTC care?

How many children in a correctional setting have a neurodevelopmental Dx, confirmed or suspected?

Capacity of each DCFS Correctional Facility, beds and staffed beds

Current waitlist for placement in DCFS Correctional Facility

Census of County Detention Centers
