Megan Miller stated the committee had discussed this topic would be an issue going forward as the new NRS rolls out.

Shelia Parks stated at the CIC meeting they mentioned for the first time ever there was a net surplus for families. The department has been doing a lot of recruitment and they have seen an increase in the number of families, however not specific to any group.

Judge Paige Dollinger asked if it was specific to Clark County.

Shelia Parks stated she believes it is.

Judge Paige Dollinger commented Ryan Gustafson would have more information, however as far as she knows they are still struggling with recruitment of new foster placements in general and extended foster care placements.

Shelia Parks stated Wonswayla Mackey was the one who reported on it.

- Discuss and identify concerns surrounding young adults entering independent living and/or extended foster care who are also involved in the Department of Juvenile Justice Services. Megan Miller stated Judge Bailey has been handling the crossover calendar for the population. It has been a successful way of handling those cases. Megan Miller asked committee members if they have any thoughts, updates, or concerns relating to that population.

Judge Paige Dollinger stated in the North they have a similar crossover docket called the Project One Docket. Judge Robb presides over it, and it is held at the Jan Evans Juvenile Justice facility in Reno.

- Discuss and identify issues surrounding placements for sibling groups. Megan Miller stated as far as she was aware, Clark County was struggling with placements for sibling groups. Now that there is a surplus, Megan Miller is unsure if she has seen it trickle down into her cases. Megan Miller asked committee members if they have anything to add about placements for sibling groups.

Judge Paige Dollinger commented in Washoe County they continue to struggle finding placements for larger group of siblings.

- Discuss and identify concerns surrounding placement for children who are also involved in the Department of Juvenile Justice Services. There was no further discussion, issues, or progress to address relating to congregate care.

8. For Possible Action: Identify and Approve a Goal to be Accomplished by the End of the Year – Megan Miller, Ryan Gustafson, Judge Paige Dollinger, Shelia Parks
Megan Miller stated ideally the goal would be related to the two larger subcategories, extended foster care and placements for children in the foster care system. Megan Miller asked committee members if they had any ideas about a goal for the committee this year.

Judge Paige Dollinger commented Ryan Gustafson might have a better idea of an actual, realistic goal that could be accomplished by the end of the year. His input is important.

Shelia Parks stated placements for children who have mental health issues has been a huge issue. They have a lot of children still sitting in Child Haven who they cannot find appropriate placement. Perhaps something surrounding just making sure they have the appropriate placement for children with mental health needs, however Shelia Parks is unsure what can be done by the end of the year.

Megan Miller stated having boots on the ground individuals on the committee who could take the issues up to the Commission was talked about as being the purpose of the committee when she joined the committee. As a goal for the end of the year, it would be helpful to have a roundtable meeting with the placement team from Clark County and Washoe County to see what they are seeing as their biggest challenges and what would be helpful to address the challenges. The committee could then take it back to the Commission.

Judge Paige Dollinger commented she likes the idea. It is a concrete, accomplishable goal. The committee could also identify a DCFS placement representative who could cover the other jurisdictions in the state.

Shelia Parks stated she agrees it is a great plan to work on.

Marla McDade Williams commented placements are part of the Medicaid system. The network of facilities is maintained by Medicaid. Clark and Washoe County receive case management funding through Medicaid to find placements for kids. If a discussion is going to take place, it should include a representative from Medicaid.

Megan Miller asked Marla McDade Williams to provide someone she may have in mind via email.

Marla McDade Williams stated she would engage the Administrator to find someone for the committee.

Megan Miller asked committee members if there are any individuals who should be included in the roundtable. Wonswayla Mackey will be invited.

Shelia Parks commented perhaps DeDe Parker since she works with various teams on discussing specialized placements and hospitalizations. She may have some great insight.

Megan Miller stated she would be happy to accommodate if there are any other thoughts or requests to be included afterwards.
