Indirect Costs

• Where a rate is applied, indirect costs are not budgeted as specific cost items, but rather are bundled into the rate that is charged against certain direct costs under the grant.

• The specific costs included in an organization’s indirect cost rate vary, but typically include things like utility costs, organizational accounting fees, and equipment depreciation.

• Indirect costs may be charged to an award only if (a) the recipient has a current (unexpired), approved negotiated indirect cost rate; or (b) the recipient is eligible to use, and elects to use, the de minimis 10% indirect cost rate described in the Part 200 Uniform Requirements, as set out at 2 CFR 200.414(f).
• Match is filled out exactly as previous sections.
• Documentation is required as in previous sections.

All documentation MUST be provided in the order it is laid out on the Match Tab and must be for the month you are seeking reimbursement for.

End of the Year Process

Last and first month of each award period
Special Guidelines for end/beginning of grant year.

• All RFRs for June 2021 must be submitted by July 9, 2021 to avoid lengthy delays in payment

• All services/payroll must be allocated for the month end.

• June services will NOT be reimbursed if requested on the July RFR. They MUST be on the June RFR and allocated appropriately.

• These are the only two months that do not completely follow the reimbursement rule for RFRs.
What does this mean?

If your pay period is from June 27 – July 10, you will have to allocate the 4 days (June 27 – June 30) onto your June RFR and the remaining 10 days (July 1 – July 10) to your July RFR, even though payroll will not occur until later in July.

If you receive invoices the last week of June, for June expenses (utilities), but do not write a check for them until July, they still need to be on the June RFR as they are June expenses.

If you receive invoices the last week of June for July expenses (rent), those expenses need to be on the July RFR as they are for July.
The grant year ends June 30, 2021, and expenses cannot be incurred once the funding year has ended, regardless if you have a new award or not.
If you need changes to your workbook, these need to be made prior to submitting your RFR. This includes Personnel changes or additional lines added to any category of the workbook.

Total Bill: $213.90 for 30 days = $7.13 charged per day

June Allocation: 8 days at $7.13 per day = $57.04

July Allocation: 22 days at $7.13 per day = $156.86
You might have two bills on your June RFR: The one you paid in June and the prorated part of the one you will pay in July

$213.90/30 days X 8 days of service in June = $57.04
**Services on Workbook**

**July RFR**

- $213.90/30 days x 23 days of service in July = $163.99

1. Each grant year, final Budget Modification Requests must be submitted by the last Friday of April. On rare occasions, and with reasonable justification, an extension may be allowed.

2. All goods and services received by the last day of the program's grant year, but not yet paid, are to be treated as an accounts payable of that grant year.

3. Final Requests for Reimbursement must be submitted to the GMU within 10 days after the end of the State fiscal year (i.e., by July 10th).

4. On the final Request for Reimbursement, GMU may approve a negative balance shown in one or more budget categories as long as the following conditions are met:
   a. There is no change in the indirect percentage rate.
   b. On the final RFR of the year there is no negative balance in any budgeted category.
   c. Total expenditures from all categories do not exceed the total grant budget.
   d. The Subrecipient submits a detailed request/justification to the GMU via e-mail prior to over-expending funds for the category (or categories) in question.
   e. The budget variances do not constitute substantive changes to the original agreement or Scope of Work.
   f. The GMU pre-approves the request via e-mail.
   g. Subrecipients that over-expend budget categories and then ask for approval may be denied.

5. ALL expenses for the grant year must be included in the last RFR, either June or September, depending on the grant performance period. This means that if the subaward ends in June, June's payroll and/or all other expenses MUST be included in the June RFR and will not be carried forward to a new grant award and are not eligible for reimbursement in July.
