Action Items In-progress/Pending:

Statutory Deadline is July 1, 2018

I. Recidivism Definition and Measurement

Definition of Recidivism: **“a child’s tendency to relapse into a previous condition or mode of behavior after the initial intervention of the Juvenile Justice System”.**

Recidivism rates in Nevada will be measured at various points of a child’s time in the juvenile justice system.

Recidivism rates will be measured when an individual, within 3 years of initial arrest/citation, adjudication, commitment or placement into an out of home facility, placement under probation or parole supervision or when convicted as an adult is

- a) Re-arrested or
- b) Re-adjudicated or
- c) Re-committed or
- d) In violation of supervision or
- e) Convicted by an adult court

II. Performance Measures and Data Analysis

- Data Analysis:

Data collected should be analyzed based on the:

- 1) risk level of the youth

2) by each facility including; group homes, Residential treatment facilities, youth camps and state correctional placements. With consideration to the length of time in the facility and whether or not the program was completed.

3) by the service provider

4) by the probation/parole services

5) by county

6) by offense type

III. Revision of NRS/NAC 62H

Not addressed by subcommittee.

Recommendations for the Commission:

- None at this time

Questions for the Commission:

- None at this time

Other Notes:

The subcommittee had a good conversation around recidivism and performance measures.

It is the intent of the co-chairs to get a vote on the recidivism definition and the points of time which we will recommend the data be collected to get understanding of how we are doing as a juvenile justice system.
