TASK FORCE MEMBERSHIP AND FUNCTION

The Nevada Children’s Justice Act Task Force was established in 1994 by the Administrator of the Division of Child and Family Services (DCFS), Department of Health and Human Services. The Task Force meets quarterly, and subcommittees meet as needed to work on identified projects. The Task Force is facilitated by a DCFS Social Services Program Specialist who works with the Task Force Chair to identify agenda items and to the monitor progression toward goals.

The Task Force met four times during the reporting period. The Task Force has established four subcommittees: 1.) Citizen’s Review Panel Recommendations, 2.) Notice of Funding Opportunity, 3.) Evaluation Subcommittee and 4.) Bylaws Subcommittee. The first two subcommittees meet annually, the Evaluation Subcommittee meets quarterly, and the Bylaws Subcommittee met one time to revise the Task Force’s Bylaws. The Task Force meets through video conferencing as members are located throughout the State, including multiple rural areas and the two largest cities, Reno, and Las Vegas, which are 450 miles apart. The Task Force has maintained full membership throughout the year despite several membership changes; there are no current vacancies.

See Appendix A with each member’s required professional category, name, title, and brief description of relevant professional experience. The Task Force has additional members at large including all the directors of the Child Advocacy Centers.

The Task Force continues to successfully implement the NOFO process, which includes discussion and review of the process to modify and make improvements as needed. There is crossover membership with multiple CJA Task Force members and Nevada’s CIP teams. The Task Force maintains four subcommittees to enhance Task Force engagement, increase progress toward goals, update and revise bylaws, and improve evaluation of CJA funded activities.

Outcomes: During the report period, monitoring of goals established from the Three-Year Assessment in 2021 was accomplished at regular meetings of the Task Force. The NOFO award process continues to be utilized, helping the Task Force work toward meeting these goals. The

Evaluation Subcommittee keeps the discussion on improvement of evaluation activities at the forefront of the Task Force as well as helped complete Nevada's 3-year assessment due in 2024. The NOFO subcommittee has allowed for increased discussion and accountability of proposed activities. The subcommittees overall have increased the participation of Task Force members at both subcommittee and regular Task Force meetings.

- The Cornerhouse Forensic Interview training was in November 2023. Both attendees passed the final interview exam and are certified in forensic interviewing as a result of this training. This knowledge has already been utilized in field work during fact finding court hearings, interview consultation with other MDT members, and investigating child abuse injury cases.
- The "Bridges Out of Poverty" training was provided to 15 MDT members. All attendees were provided with a book that correlated to the training for ongoing learning. Feedback from this training included MDT members expanding knowledge of poverty as a culture and exploration of how to further incorporate these known values when engaging with individuals living in poverty.
- Participants of the NCAC forensic interview training course would recommend it to other professionals and indicated it was effective in teaching the skills needed to conduct a forensic interview with a child. Participants gained ability to conduct forensic interviews in suspected child sexual abuse cases, while limiting the trauma of the interview to the child victim, and/or testify in court to such interviews. Participants who attended conference(s) have increased knowledge and skills in multiple areas related to the investigation and prosecution of child abuse and neglect, including but not limited to child fatalities, physical abuse, and sexual abuse investigations, gathering information, fostering connections with community and family partners, and applying a safety model to child welfare safety assessments.

- The Celebrite Certified Operator and Certified Analyst Training attended by two Carson City Sheriff's Office staff taught them how to access, extract, collect digital data, overcome complicated locks, encryption barrier and damaged devices. This training allowed these

investigators a chance to learn how to advance their technology training therefore improving potential outcomes for children who are victims of internet abuse.

- The End Violence Against Women International Conference on Sexual Assault, Domestic Violence and the Cycle of Justice Conference was attended by 3 staff members (1 nurse and 2 advocates) with the NVIFN. Since the purchase and installation of this VALT Cloud System, NVIFN has used this technology 16 times.
- CCDFS purchased a high-speed copier for law enforcement to efficiently work onsite at the Southern Nevada Child Advocacy Center.

ACTIVITY 4: COLLABORATE WITH COURT IMPROVEMENT PROGRAM (AB)

Narrative description of the activity: Since 2021, DCFS has contracted with Health Management Associates (HMA) for a project on improving child welfare practices when child abuse and neglect cases also have co-occurring interpersonal violence. This project was primarily funded with Title IV-B(2) funds. DCFS, HMA and the CIP coordinator collaborated to train local MDT members on how to reconcile the needs of the adult victim and non-offending parent with the needs the child/ren in the family, how to effectively engage the perpetrator in treatment, and the important role that case plans can and should plan in safety planning both for in home and out of home care of children.

The current Task Force goals that are addressed by this activity: Goal 1

Subgrantee, implementing the activity: Health Management Associates

Description of evaluation work related to this activity, including the following (as appropriate):

Evaluation methods: HMA provided Nevada with an evaluation of their project.

Outputs: Increased knowledge among court stakeholders regarding cases with co-occurring interpersonal violence which increased Nevada’s overall handling of cases of child abuse and neglect.

Outcomes: It is anticipated that Nevada’s court stakeholders who received this training will have an increased knowledge of best practices aimed at improving the judicial handling of child abuse and neglect cases when there is co-occurring interpersonal violence.

ACTIVITY 5: SUPPORT CSEC DATABASE (AB)

Narrative description of the activity: Support ongoing CSEC protocol implementation in Nevada through collaboration with Nevada’s CSEC Coordinator. Nevada has developed a statewide database that has capability to track CSEC victims across multiple agencies and to establish a baseline dataset of this population for Nevada. The database will help Nevada in obtaining an accurate count of youth in Nevada who have been victims of sex trafficking and what systems and services they interact with. During Nevada’s 2023 legislative session, new legislation was passed that requires multiple entities to submit trafficking data to the Center for Analysis of Crime Statistics at the University of Nevada, Las Vegas. Some of these entities include the DCFS CSEC coalition, DCFS Human Trafficking Coalition, the Nevada Policy Council of Human Trafficking, local Human Trafficking Task Forces, and each law enforcement agency in the state. The Center for Analysis of Crime Statistics is required to develop a report with this data for Nevada’s legislature.

Subgrantee implementing the activity: Center for Analysis of Crime Statistics at the University of Nevada, Las Vegas

The current Task Force goals that are addressed by this activity: Goals 2 and 4

Description of evaluation work related to this activity, including the following (as appropriate):

Evaluation methods: Data of CSEC victims will be collected, monitored, and analyzed.

Outputs: The database has been established and data entry has started to occur. While the CJA Task Force funded the initial development of the database, it was difficult to get traction as all other entities declined to provide data and the only data the Center for Analysis of Crime Statistics has been able to collect and analyze is CSEC data from DCFS. The passing of this senate bill aims to improve the data collected by the Center for Analysis of Crime Statistics.

Outcomes: As the project was not able to be completed as anticipated, there are minimal outcomes to report. The database has been established, but the intended outcome of tracking CSEC victims across multiple agencies has not yet occurred. The CJA is not continuing to fund this project at this time but will continue to receive progress updates about the database and may become involved again in the future.
